CIVIC IMPROVEMENT CLUB TALKS OF CARE OF TREES

Granville Ballard Addresses the Association at the Commercial Club.

"The Trees in Our City" was the subject of a paper read by Granville Ballard be-Commercial Club yesterday afternoon, Mr. Ballard told his hearers of a few minutes' walk he had taken in the principal residence district and the vandalism he noticed against the trees in a very few squares. It was his idea that the superintendent of parks should see that all trees are planted | Lizton, Ind., has been the guest of his moved by the city. In the discussion following the reading of the paper a number of ideas were expressed as to which was the best plan to get the puplic interested in the question of keeping the trees in proper condition. The best plan advanced perhaps was the one to have the question discussed by the press once a week. The question of the lawns of the city was discussed at length by William S. Gilbreath, a man | Worthington, Ind., has returned home. who has studied the question thoroughly and has recently moved to this city from Chicago. He told the members what he thought was the best plan to keep grass on all sorts of soil. He thought that the reason for so many poor lawns was the kind of soil used. It was decided by the association to appoint a committee to confer with a like committee from the Board of Public Works, park commissioners, Commercial Club park committee and Technical Club committee on the question of ornamental bridges. School No. 9 sent the association a copy of its plans for beautifying a vacant lot in the vicinity of the
